- Interactive exchange and networking platform for digital decision-makers
- Eugene Kaspersky (Kaspersky Lab), Natalia Oropeza (Siemens), Thomas Braun (UN), Florian Haacke (innogy), Prof. Dr. Angelika Niebler (MEP) and many other speakers on the platform
- Practical seminars on reference projects and use cases

The new cybersecurity summit **Command Control** from **September 20–22, 2018** in the **ICM - Internationales Congress Center München** is bringing together decision-makers and top speakers from business, academia and politics for the first time. They will discuss a secure digital future at Europe's leading digitalization location. In keynote speeches, workshops and panel discussions, decision-makers will find out how they can securely manage the digital transformation of their companies. Leading figures including the CEO of Kaspersky Lab Eugene Kaspersky, the European Parliament's Rapporteur for the European legislation on cyber security, Prof. Angelika Niebler (MEP) and Natalia Oropeza, Chief Cybersecurity Officer at Siemens will all be participating.

“Digitalization needs a secure foundation. In view of the ever more complex threat landscape, new management strategies and exchange opportunities are required,” explains Klaus Dittrich, Chairman and CEO of Messe München. “Therefore, with Command Control we are offering the right interactive and interdisciplinary platform where decision-makers will learn from selected experts and opinion leaders how they can secure the survivability and growth of their own companies using cybersecurity, digital leadership competence and compliance.

Interactive Conference Program

The focus of Command Control is the interactive conference program with the participation of over 75 high-caliber experts and opinion leaders from business, academia and politics. In all the sessions the attendees will have the opportunity to join in and ask questions. The event language is English. Simultaneous interpreting in German will be offered for the presentations on the main stage and side stage. The agenda items below are some of the highlights of the three-day agenda:

- Panel *Future of Digital Trust* with, amongst others, **Eugene Kaspersky**, CEO Kaspersky Lab (20 September 12.45 pm)
- Keynote Speech *Understanding and Managing Human Risk* by **Lance Spitzner**, Director SANS Security Awareness) (20 September 1 pm)
- Panel *Cybersecurity - European Approaches!* with, amongst others, **Prof. Dr. Angelika Niebler**, MEP & Rapporteur in the European Parliament on the Cybersecurity Act (20 September 1.30 pm)

Press Release September 12, 2018 | 2/3

- Discussion Round *Cyber Risk Resilience Dashboard for Senior Executives* with, amongst others, **Thomas Steinich**, Head of Standards and Strategy Linde Group (20 September 1.45 pm)
- Discussion Round *The making of a good CISO* with, amongst others, **Natalia Oropeza**, Chief Cybersecurity Officer Siemens, and **Jeff Brown**, CISO Raytheon (20 September 2.30 pm)
- Keynote *Solution Sessions for Critical Infrastructures* by **Terry Halvorsen**, CIO Samsung Electronics & former CIO US Department of Defense (20 September 5 pm)
- Incident Talk *Strategic Positioning of Cybersecurity at Top Management* by **Florian Haacke**, CSO Innogy (21 September 11.15 am)
- Presentation *Darknet Markets: An introduction to Cybercrime markets* by Cybersecurity Evangelist **Marco di Filippo** (21 September 4.45 pm)
- Keynote *Implementing a Cybersecurity Initiative into a Global Operation* by **Thomas Braun**, CISO United Nations (22 September 10.10 am)

Learning from practical experiences

Alongside the Conference Program Command Control will be running over 25 best practice 90 minute workshops where security experts will provide practical insights into specific reference projects and use cases. The format of the workshops will be small groups of up to 20 people which will also enable the attendees to discuss sensitive aspects. The best practice seminars will cover the entire cybersecurity spectrum from the implementation of effective cyber resilience strategies via best practice to the control of industrial control systems and to projects in which companies have been mentored successfully through to GDPR compliance. The workshops are being held by the proven experts from the corporate partners of Command Control including **Akamai, Checkpoint, Ernst & Young, Proofpoint, Rohde & Schwarz Cybersecurity, SANS Institute** and **SecureLink**.

Visualization of threat scenarios

The event also includes an exhibition area where a range of security providers will be presenting their solutions. The aim of this innovative showcase concept from Command Control is to find new ways of visualizing complex inter-connections. This concept is being launched this year with the installation of a *digital factory* in which the security providers. **Airbus Cybersecurity, Cyoss by ESG, Giesecke & Devrient Mobile Security, TÜV Rheinland** and **VMware** have set up a joint augmented reality system to clearly demonstrate the different threat scenarios in the networking of production plants and to present corresponding solutions.

Furthermore, as a warm-event to Command Control on September 19, there will be a **Pre-Event** at the Information Security Hub in Munich Airport which is offering a cyber simulation taster training session to attendees. The event will then come to a close at a **Networking Event** on September 22 in the Schottenhamel Tent at the **Munich Oktoberfest**.

The program schedule of Command Control is available at <https://cmdctrl.com/programm>.

Press Release September 12, 2018 | 3/3

About Command Control

Cybersecurity as a key to corporate success in the digital age, this is the central theme of the new event format Command Control. This international, cross-sector platform targets all those decision-makers who are involved with the digitization process within companies and who want to learn more, educate themselves and network with one another.

The first Command Control summit will be held at the ICM – International Congress Center Munich from September 20-22, 2018.

Messe München

Messe München is one of the world's leading trade fair organizers, offering more than 50 trade fairs for industrial goods, consumer goods, and new technologies. More than 50,000 exhibitors and around three million visitors take part in more than 200 events each year at the exhibition site in Munich, the ICM – Internationales Congress Center München and the MOC Veranstaltungszentrum München, as well as abroad. In cooperation with its subsidiaries, Messe München organizes specialist trade fairs in China, India, Brazil, Russia, Turkey, South Africa, Nigeria, Vietnam, and Iran. Messe München is represented around the world thanks to its network of affiliated companies in Europe, Asia, Africa and South America, as well as 70 foreign representatives covering more than 100 countries.
