Co-Organized with Optech Consulting LASER World of PHOTONICS 2019 again stages the 14th International Laser Marketplace. The symposium on Laser Materials Processing takes place on Wednesday, 26th June 2019, from 10:00 a.m. to 4:30 p.m., in the conference room of the press centre West of the Messe München fairground. Worldwide leading experts will discuss international markets and market trends as well as new applications and technologies. The first International Laser Marketplace was founded in 1992. Since 1995 it is held in conjunction with LASER World of PHOTONICS in Munich.

The seminar attracts industry professionals including decision makers and senior executives across the laser industry, from component manufacturers to laser manufacturers, system integrators, end users, and investors.

One part of the symposium features interviews with outstanding entrepreneurs of the laser industry and a panel discussion.

CEO Interview

Scott Keeney, Chief Executive Officer of nLIGHT Inc, in discussion with Günther Braun

Interview: Private Equity in the Laser Industry - Prospects in a Changing Market Environment

Falk Strasczeg, Founding Partner, Extorel Private Equity Advisers, in discussion with Günther Braun

Short and Ultrashort Pulsed Lasers - Technology and Market Trends

Panel discussion with Martynas Barkauskas (CEO, Light Conversion), Thomas Merk (VP & GM, Industrial Lasers & Systems, Coherent), Qitao Lue, (CTO, Han's Laser) and Berthold Schmidt (MD R&D, Trumpf Lasertechnik)

The other part of the symposium features presentations on key market and technology topics.

The Global Market for Lasers and Systems in Materials Processing: Vigorous Growth, Will it Last?

Arnold Mayer, President, Optech Consulting

China Industrial Laser Market Update - Current State and Future Prospects

Qitao Lue, Chief Technology Officer, Han's Laser Technology Industry

Overview of Laser Processing Market and Technology in Japan - Activities to Integrate Industrial and Scientific Laser Technology for Smart Manufacturing

Koji Yasui, Senior Chief Engineer Lasers, Mitsubishi Electric Corporation

Energy Efficiency of Laser Processes - Important Achievements and Future Prospects

Frank Baumann, Product Manager High Power Laser, Trumpf Lasertechnik

Laser Materials Processing in India - Applications in a Widening Range of Industries Drive the Market

Maulik Patel, International Business Development, Sahajanand Laser Technology Ltd. - SLTL

Current Realities and Future Expectations of Industrial Laser Applications and Markets in Turkey

Halefşan Sümen, Assc. Prof. Maltepe University, Istanbul Editor-in-Chief of ST Automation Magazine

The 14th International Laser Marketplace will be held in English. For more information and registration please visit www.world-of-photonics.com/lasermarketplace

Further information, interviews, trends and topics can also be found in the [photonics industry portal](#), the information platform for photonics.

About OPTECH CONSULTING

Optech Consulting, a consultancy specializing in the laser and photonics industry. The company provides consulting for industry, investment bodies, and government. It publishes periodic reports on the industrial laser market and organizes the International Laser Marketplace symposium.

About LASER World of PHOTONICS

The LASER World of PHOTONICS is the world's leading platform for the laser and photonics industry. Europe's largest World of Photonics Congress will be taking place in parallel with the trade fair. The program comprises a variety of scientific conferences of leading global organizations. Supplementing this Messe München GmbH will be offering practical lectures on the applications of photonics ("Application Panels"). In 2017 the trade fair set an exhibitor record with 1,293 exhibitors from 42 countries. More than 32,000 trade visitors from 90 countries entered the Messe München site. The World of Photonics Congress registered around 3500 participants, with around 3,000 lectures and presentations including poster presentations on offer. The LASER World of PHOTONICS has been organized by Messe München International every two years since 1973; the next event will take place in Munich from June 24–27, 2019, the next World of Photonics Congress will take place in parallel from June 23–27, 2019 in the ICM - International Congress Center Munich. www.world-of-photonics.com

About the LASER World of PHOTONICS global network

The LASER World of PHOTONICS has developed an international trade fair network. The LASER World of PHOTONICS in Munich is the world's leading laser and photonics trade fair and as the innovation pacemaker is where the global photonics industry gathers every two years. The [LASER World of PHOTONICS CHINA](#) and the [LASER World of PHOTONICS INDIA](#) are leading regional trade fairs for laser and optical technologies and are staged annually in China (Shanghai) and in India (alternating between Bengaluru, Mumbai, Bangalore and New Delhi). With these trade fairs in Munich, China and India, Messe München is the world's leading trade fair organizer for lasers and photonics.

Messe München

Messe München is one of the leading exhibition organizers worldwide with more than 50 of its own trade shows for capital goods, consumer goods and new technologies. Every year, a total of over 50,000 exhibitors and around three million visitors take part in more than 200 events at the exhibition center in Munich, at the ICM – Internationales Congress Center München and the MOC Veranstaltungszentrum München as well as abroad. Together with its subsidiary companies, Messe München organizes trade shows in China, India, Brazil, Russia, Turkey, South Africa, Nigeria, Vietnam and Iran. With a network of associated companies in Europe, Asia, Africa and South America as well as around 70 representations abroad for over 100 countries, Messe München has a global presence.
