Testimonials – drink technology India 2016

Hari Menon, Director, ACE Technologies & Packaging Systems Pvt.

Ltd., India: “We have been a regular participant in drink technology India since its inception and we have seen it grown multi-fold since the first year. It is a very good platform for companies like us to showcase their products and technologies to the people related to this industry. With the boom in the food and beverage industry, it is very crucial to have a platform for all the key players to connect with each other and discuss the new trends in the industry. drink technology India serves this purposes and it is one of the largest trade shows for the food and beverage industry in India. We had a fantastic experience at the trade fair and we will definitely visit the next edition as well.”

Satish Arcade, Senior Manager, Amul, India: “We have a Pan-India presence and as we manufacture dairy products, we require different kinds of packaging material. drink technology India and International Pack Tech India provides us with the platform to interact and network with the key players and suppliers in the packaging industry. We would recommend this exhibition to all the people from the food processing, packaging and beverage industry.”

R. Chandra Shekhar, Application Technologist, Akras, India: “This is our first time at drink technology India and International Pack Tech India. These trade fairs are very crucial for the industry. Here we met all the key stake holders and policy makers of the industry. It acts as a forum where challenges faced by the industry can be discussed and through which solutions for such challenges can be thought upon. We look forward to participate in the next edition.”

Sandeep Maurya, Senior Manager – Design, Brewforce Technologies, India: “We have been part of drink technology India since the last 6 editions. This trade show along with International Pack Tech India, helps us to know and understand the new developments in the industry. Over the years the quantity and the quality of the visitors has grown. This is a very well organized trade fair and acts as a platform for us to meet our existing and new potential clients. We will be participating in the next edition as well.”

Harpreet Singh Chadha, Managing Director, The Brewmaster Micro-Brewery, India: “This is the 2nd time we were participating at drink technology India and we have had a pleasant experience here with regards to the quality of customers, footfall of the visitors, etc. The trade fair provides us with various opportunities to interact with the policy makers of this industry, the key players and our competitors as well. We will definitely be participating at the next edition of drink technology India.”

Anjana Ghosh, Director, Bisleri International Pvt. Ltd., India: “This is the first time I have visited drink technology India and International Pack Tech India 2016. This is a very good trade fair as it provides wide exposure and adds value to the business. It is a good platform for us to interact and network with the key players in the industry.”

Biren Bhagat, National Head – Engineering & Innovation, Hindustan Coca-Cola Beverages Pvt. Ltd., Coca-Cola India: “This is the first time that we are participating at drink technology India and International Pack Tech India. These trade fairs are a great opportunity for us to network with various suppliers not only from the beverage industry but also from brewery and food processing industry. So far it has been a great experience, and we look forward to the next show.”

Sudhir Jain, Senior Director, Molson Coors Cobra, India: “drink technology India and International Pack Tech India 2016 caters to the very basic needs of the food and drink industry. Earlier, people used to visit such trade fairs in Germany as it was larger events there, but now with the entire congress of all industries related to food and beverage in one place,

representing the entire eco-system like the suppliers, supply-chain, material tracking, and technology, the Indian trade fairs provide very good exposure and a great experience. I have been attending these trade fairs over the years and I have seen an increase in attendance, which is very good. I foresee great prospects for these trade fairs in the future.”

Jaydeep Chatterjee, Senior Application Specialist, Du Pont Ltd,

Thailand: “I have been visiting drink technology India since the last 4 editions and it is a very well organized trade fair which has been making gradual advancements since its inception. There have been really good conferences where the challenges in the food and beverage industry have been discussed and solutions for these challenges been thought upon. I am very pleased to be here at drink technology India 2016 and Du Pont Ltd will be there for the next edition as well.”

Shrikant Kulkarni, Director – Technical, Elephas Engineering &

Projects Pvt. Ltd., India: “This is the first time that we are participating at drink technology India and we are very pleased with the overall trade fair. It has been an amazing experience in terms of business, and we have received some great responses to our products. drink technology India 2016 has helped us to connect with all our customers and it is a very good platform for all the people in this industry to understand about the new trends and technologies in the market.”

Mayur Shinde, Director, Fristam Pumps India Pvt. Ltd., India: “We are manufacturers of 100% hygienic pumps and the sectors that we focus on, are dairy, brewery, pharmaceutical and cosmetics industry. This is the 4th edition that we are participating at drink technology India and this is one of the prime stop-overs for us in terms of trade fairs. The customer flow is very relevant to the sectors that we largely focus on, and we are very pleased to be a part of drink technology India 2016.”

Bipin Panchal, Director, Global Pet Industries Pvt. Ltd., India: “It has been a great pleasure participating at drink technology India 2016. This trade fair is an excellent platform to interact with our existing customers and

potential clients. Overall it has been a great experience with respect to customer footfall and enquiries that we have received.”

Ravindra Kanetkar, General Manager – Business Development, KHS Machinery Pvt. Ltd., KHS India: “We are a beverage packaging solution company providing solutions to Indian as well as the international customers. KHS has been part of drink technology India since its inception and we have seen the quality of the show as well as the visitors improve year on year. drink technology India 2016 is a platform for us to launch our latest technologies and products and to connect with all the consumers on a domestic and international level. It provides a good exposure and helps us to network with our existing clients and meet new prospects as well. We are very pleased to be a part of the trade fair and will definitely be a part in the next edition as well.”

VGS Babu, Head of Sales, Kronos India Pvt. Ltd, Kronos India: “We are one of the leading participants at drinktec Munich, as well as drink technology India. It is one of the best platforms for us to connect with our end users, suppliers, manufacturers, competitors as well as the key stakeholders and the policy makers of the industry. It is a one stop shop for all key players to discuss new trends and technologies in the market.”

Rajat Kedia, Director, Manjushree Technopack Ltd., India: “We have been participating at drink technology India since its inception and we have seen the trade fair grow through the years. It is a great platform for companies like us to meet our old customers and interact with new ones. The customer footfall has largely increased and the quality of visitors is getting better every year. We will be surely participating in the next edition.”

Dhaval Joshi, Sales Manager, Mapro, India: “Our objective to attend these trade fairs is to understand the different technologies that surround the beverage market. We also interacted with the key players of the industry to understand the new trends that have come up in the beverage, food processing and packaging industry. We would definitely visit these trade fairs in the next edition.”

Hitesh Panchal, Senior Manager – Exports, NPM Machinery Pvt. Ltd., India: “This is the second year that we are participating at drink technology India. We are manufacturers of packaging machinery for industries like pharmaceuticals, food & beverage and cosmetics. drink technology India helps us to showcase different products and technologies catering to the food & beverage sector. We got good responses at drink technology India 2016 and we are very pleased with the customer flow. drink technology India helps the industry to grow by bringing together all the key players and setting up a platform for them to discuss the new trends in this industry. We are very pleased to be a part of drink technology India 2016 and we will be participating in the next edition as well.”

Darcy Simonis, Platform Director, Global Regions, Pentair, USA: “drink technology India was a very successful event for Pentair. Our booth was busy all the time, and we were delighted with the quality and the enthusiasm of the customers. We thought the opening times were perfect and that just rounded off an excellent result. We will definitely be back again in 2018.”

Marga Breeuwsma, Food Industry Specialist, Paques, India “This is my 1st time at drink technology India and International Pack Tech India and it has been a very good experience with respect to the footfall of the visitors. The conferences were very interesting and very interactive with a lot of questions and discussions taking place. This is an excellent platform for all the companies to showcase products and technologies to the right set of people.”

Srihari Sriramaiah, Director, Sanky Technical Consulting Pvt. Ltd., India: “We have been a part of drink technology India since its inception and we are very happy with the way that this trade fair has shaped up through the years. It is a great platform for us to showcase our latest technologies to relevant customers and a one-stop shop to connect with clients and customers; both domestic, as well as international. We are very happy and pleased to be a part of drink technology India 2016.”

Soheb Masani, Partner, Silva Bottling Co., India: “This is the 4th time we are visiting drink technology India and International Pack Tech India. These are very helpful trade fairs to meet and interact with existing customers and potential new customers. We get to see firsthand products of our competitors and understand the new trends and technologies in the food processing, beverage and packaging industry. We would definitely visit the trade fairs in the next edition.”

James Chen, Regional Sales Manager, Tech – Long Packaging Machinery Co., Ltd., China: “We have received a very good response at drink technology India 2016 and we are very pleased to be a part of the trade fair. drink technology India is an excellent platform for us to showcase our products and technologies and also to connect with our Indian customers as well as to meet potential clients. We will participate in the next edition as well.”

Anoop Raman V., CEO, Transline Conveyors Pvt. Ltd., India: “drink technology India 2016 is a good platform for us to showcase our products and technologies to the international and domestic customers. It also helped us to connect and network with our competitors and various other key players, stakeholders and suppliers in the industry.”

Pravin Parasiya, Partner, Ravi Enterprise, India: “drink technology India and International Pack Tech India provides us with an opportunity to find supply casting orders for machine manufacturers and acts as a platform for us to survey the possibility of diversification into new ventures. Overall, the exhibition is very informative and it is an excellent place to be in, for all the key players in the food processing, packaging and beverage industry.”

Deepak R. Kokane, Director Beverage Division, Repute Engineers Pvt. Ltd., India: “drink technology India 2016 is a great place to be in for all the people related to the liquid food and beverage industry to connect and network with each other and discuss new trends in this industry. This trade fair boosts up the industry by getting together all the industry professionals at one place.”

The next drink technology India takes place from October 24 to 26, 2018 at the Bombay Convention & Exhibition Centre in Mumbai.
