- More exhibits showcasing technologies for end users
- Upcoming edition in Bengaluru – the 'Silicon Valley of India'

The upcoming edition of LASER World of PHOTONICS INDIA 2018 will offer exhibitors more space and visitors more technologies to explore and source. India's dedicated trade fair for laser and optical technologies will take place from September 26 to 28, 2018 at the Bangalore International Exhibition Center and will bring together manufacturers, distributors, buyers from various user industries and scientists under one roof.

Bhupinder Singh, Chief Executive Officer of Messe München India, commented: "The demand for laser and optical technologies is growing due to their high-precision and speed. Increasingly, more application industries all over India and across sectors are driven to explore newer technologies in order to improve their efficiency and output."

Photonics applications are ubiquitous and can be found in all areas from everyday life to the most advanced science. Companies looking to upgrade their technology in order to achieve high speed and precision will particularly benefit from the trade fair. The entire value chain in photonics including laser components, cable and optical fibers, laser systems, sensors, optics, software, manufacturing technologies, process control, quality inspection and various allied solutions will be on display for the benefit of visitors.

Press Release | March 28, 2018 | 2/2

In addition to the exhibited technologies occupying more space, the supporting programs organized in partnership with leading trade bodies and institutions will offer additional benefits to all exhibitors and visitors.

“This year, we will again have specialized displays of technologies including Additive Manufacturing and Machine Vision. Overall, a combination of live products and technologies along with high-level supporting programs will make LASER World of PHOTONICS INDIA 2018 an ideal place to capture the technological pulse of the industry.” concluded Singh.

Registration for exhibitors is now open: world-of-photonics-india.com

LASER World of PHOTONICS INDIA

LASER World of PHOTONICS INDIA is the only regional trade fair for laser and optical technologies in India. It has been held every year since 2012 in different places in India. In 2017 the trade fair attracted 6,404 visitors, 160 exhibitors and 10 represented companies. The next LASER World of PHOTONICS INDIA will take place from September 26 to 28, 2018 at the Bangalore International Exhibition Center (BIEC), Bengaluru. www.world-of-photonics-india.com

The LASER World of PHOTONICS global network

LASER World of PHOTONICS has developed an international trade fair network. LASER World of PHOTONICS in Munich is the world's leading trade fair for the laser and photonics industry. The World of Photonics Congress is Europe's largest photonics congress. LASER World of PHOTONICS CHINA and LASER World of PHOTONICS INDIA are leading regional trade fairs for laser and optical technologies and are staged annually in China (Shanghai) and India (alternating between Bangalore and New Delhi). Messe München is the world's leading trade fair organizer for lasers and photonics. With a total of more than 2,400 exhibitors and more than 95,000 visitors in Munich, China and India, Messe München is the world's leading trade fair organizer for lasers and photonics.

About Messe München

Messe München is one of the leading exhibition organizers worldwide with more than 50 of its own trade shows for capital goods, consumer goods and new technologies. Every year, a total of over 50,000 exhibitors and around three million visitors take part in more than 200 events at the exhibition center in Munich, at the ICM – Internationales Congress Center München and the MOC Veranstaltungszentrum München as well as abroad. Together with its subsidiary companies, Messe München organizes trade shows in China, India, Brazil, Russia, Turkey, South Africa, Nigeria, Vietnam and Iran. With a network of associated companies in Europe, Asia, Africa and South America as well as around 70 representations abroad for over 100 countries, Messe München has a global presence.
