- New dates: April 9 – 12, 2024
- Staging the events together will create synergies for exhibitors and visitors

analytica and ceramitec have been rescheduled. The world’s leading trade fair for laboratory technology, analysis and biotechnology and the world’s leading trade fair for the ceramics industry will now be held two weeks earlier than scheduled. The new dates are April 9 – 12, 2024, and the exhibitions will be held simultaneously once again.

The new dates will provide both trade fairs with additional ways of using the available space and rooms at Messe München’s fairgrounds. This change also ensures that both of the world’s leading trade fairs will be held at the same time in 2024, a decision that will create synergies for exhibitors and visitors.
