with our valued customers, especially those in the North. Growth in all areas

Overall, bauma CONEXPO INDIA counted 39,173 participants, a growth of 20% compared to 2016. Rtn. Er. A. Puhazhendi, National President from joint organizer BAI (Builders Association of India) emphasizes: “For our member companies throughout India, bauma CONEXPO INDIA is a must-attend event to stay informed about latest industry trends and new technologies.“ Apart from Indian visitors, the trade fair also welcomed buyer delegations from Bangladesh, Bhutan, Nepal, Sri Lanka and other countries in the region.

The Indian subcontinent offers excellent opportunities for doing business in the construction industry. Major infrastructure projects, the booming transport sector and urban development are just some of the driving forces of the market. With a growth of 30 percent in space compared to 2016, bauma CONEXPO INDIA reflects the momentum of the industry. Vipin Sondhi, Managing Director and CEO, JCB India Ltd. was satisfied with the fair: “We are participating for the fourth time in bauma CONEXPO INDIA. The show has been successful for us as we have received a good number of meetings with business partners and potential clients. [...] We have seen exponential growth of the trade fair and we are looking forward to participating in the next edition.“

By 2025, India is expected to become the third largest market for the global construction industry. This growth is mainly attributable to large infrastructure projects. Over the next nine years, analysts expect an average real growth of 6.2 percent per year. According to forecasts, bulldozers, backhoe loaders and crawler excavators are going to see a massive increase in sales over the next five years.
