## Press Release

### bauma 2019: new hall and site structure

## Largest trade show in the world becomes even larger

- Total exhibition space expanded by 9,000 square meters
- Easier orientation thanks to new hall layout
- High demand from all over the world

**One year before the opening of the world's leading trade show bauma on April 8, 2019, Messe München provides an outlook on the latest developments: the site in the east of Munich will be expanded to 614,000 square meters, the number of halls will be increased to 18. The organizer anticipates that more exhibitors will attend than at bauma 2016.**

“Two new halls and a site structure that is even clearer – we have further optimized the parameters for our next bauma,” says Klaus Dittrich, Chairman and CEO of Messe München. The next edition of the world's leading trade fair for construction machinery, building material machines, mining machines, construction vehicles and construction equipment will take place from April 8 until 14, 2019. Currently, the worldwide demand for exhibition space is extremely high.

Expanded to 18 halls, the exhibition will feature an indoor space of 200,000 square meters. The total bauma area will hence span more than 614,000 square meters. For comparison: the last edition in 2016 had 605,000 square meters. “Thus, the already largest trade fair in the world extends its total exhibition space even further,” explains Dittrich.

A new hall and fairgrounds map facilitates the orientation on the gigantic site. Thanks to the clear division into the individual exhibition sectors, visitors can be managed in a more targeted way. With the two new halls that together cover

20,000 square meters bauma will provide space for more exhibitors than in 2016, when 3,425 exhibitors took part.

The most important changes at a glance: the largest sector construction machines and attachments is expanded from four to five halls as well as by an additional area outdoors, directly adjacent to the hall complex. The components sector now also has five instead of four halls; formworks and scaffolds moves to Hall B3; and lifting appliances are bundled in Hall C4. New in Hall C6 is the Conference Center North that houses additional conference rooms.

Previously located in Hall B0, which will be used as additional exhibition space during bauma 2019, the special “THINK BIG!” exhibit that shows students career opportunities in the construction and building material machine industries moves to the ICM – International Congress Center Munich. And there is another change that is envisaged: during the trade fair, the traffic-calmed part of Paul-Henri-Spaak-Straße will be turned into the pedestrian zone “bauma Boulevard”, along which visitors and exhibitors can enjoy an international culinary offering.

The [new hall and fairgrounds map](#) provides a good overview; the [bauma film](#) illustrates the clear division of the exhibition sectors.

More information on the trade show is available at [www.bauma.de](http://www.bauma.de).

#### **About bauma**

bauma is the world’s leading sector event for construction machinery, building material machines, mining machines, construction vehicles and construction equipment. With a total exhibition space of 605,000 square meters, bauma is also the largest trade show in the world. In 2016 bauma broke again all previous records, attracting a total of 3,425 exhibitors from 58 countries, and 583,736 visitors from 219 countries. bauma takes place every three years in Munich; the dates for the next edition are April 8 to 14, 2019.

#### **bauma NETWORK: Six construction machinery trade fairs of Messe München**

In addition to the world's leading trade fair bauma, Messe München has extensive skill in organizing additional international construction machinery trade fairs. For example, Messe München organizes bauma China in Shanghai and bauma CONEXPO INDIA in Gurgaon/Delhi together with the Association of Equipment Manufacturers (AEM) as well as the bauma CONEXPO Africa in Johannesburg. In December 2015, Messe München successfully expanded its portfolio further with the purchase of the leading Russian construction machinery trade fair CTT, now renamed bauma CTT RUSSIA. In March 2017, the bauma NETWORK was again expanded with

M&T EXPO in the form of a license agreement with SOBRATEMA (Brazilian Association of Association of Technology for Construction and Mining).

**Messe München**

Messe München is one of the leading exhibition organizers worldwide with more than 50 of its own trade shows for capital goods, consumer goods and new technologies. Every year, a total of over 50,000 exhibitors and around three million visitors take part in more than 200 events at the exhibition center in Munich, at the ICM – Internationales Congress Center München and the MOC Veranstaltungszentrum München as well as abroad. Together with its subsidiary companies, Messe München organizes trade shows in China, India, Brazil, Russia, Turkey, South Africa, Nigeria, Vietnam and Iran. With a network of associated companies in Europe, Asia, Africa and South America as well as around 70 representations abroad for over 100 countries, Messe München has a global presence.
