

LASER World of PHOTONICS CHINA 2016 statement (By Alphabetical Order)

Gordon Chen, Marketing Director, Leica Microsystems Trading Limited Shanghai

We exhibit at LASER World of PHOTONICS CHINA every year and it is very good. The trade show attracts all our customers and partners from around the world, so we can have conversations with different parties and discuss our future. We will certainly be exhibiting again next year.

Peter Chen, General Manger, COHERENT

The laser industry is now on the rise and will continue to be so. Their application is well beyond scientific research now and has become almost limitless. LASER World of PHOTONICS CHINA is very professional. There is hardly any other exhibition that can compare with it. This year marks its 11th anniversary, and that's exactly the number of years I have been in China. I hope it will grow better and lead the industry forward.

Jiake Deng, Senior Engineer (Professor), General Manager, Wuhan HG Laser Engineering Co., Ltd.

We have participated in every LASER World of PHOTONICS show, including those in Munich and Shanghai, and this is our 11th exhibition here. As a grand gathering for the laser industry, the LASER World of PHOTONICS CHINA trade show offers all exhibitors a great platform to show what they are good at. At the same time, the exhibitors have the opportunity to learn from each other. Over this time, the HG Laser exhibition has also upgraded from simply presenting machines to comprehensive solutions for all kinds of users. We are very happy to see that many of our users have confirmed their continuing attendance at the exhibition.

Cici Fan, Vice President of Sales, OPT Machine Vision

I think Vision China (Shanghai) is the most successful and popular trade show of its kind in China. This year we are hoping for more developments in the Eastern China market, and to have more exchanges with customers from the medical, semiconductor and automobile industries. The results of the show have proved very positive. We are very satisfied with visitor quality.

Xianghu Huang, Vice GM, Han's Laser Technology Industry Group Co., Ltd.

We have taken part in LASER World of PHOTONICS CHINA. In each of the past 11 years. It is a very professional trade show with industries present not just on a broad front, but also in depth. We have always showcased our latest products. We would like to say thank-you to the exhibition for its support to us throughout our development. Visitor promotion is very successful, and we have met a lot of users here. I hope our cooperation will continue in future.

Peter von Jan, Chief Executive Officer, RAYLASE AG, Germany

For us, we have 2 really important trade shows, one is LASER World of PHOTONICS CHINA, and the

other is LASER World of PHOTONICS in Munich. LASER World of PHOTONICS CHINA is a great show. When we started 11 years ago, we shared a small booth with another German company. Now we have 120 square meters. And during the show not only do we attract Chinese and Asian customers but European and American ones as well.

Kane Jiang, BD Product Marketing, Cognex GS&S Business Unit

This is Cognex's second exhibition at Vision China (Shanghai). We think that Vision China (Shanghai) enjoys a clear comparative advantage in terms of its size, organization and professionalism. It provides a very good platform for machine vision enterprises to expand their vision, increase their competitive edge and find proper solutions. We are very grateful to the organizer of Vision China (Shanghai)!

Harry Page, President, Pleora Technologies Inc.

Vision China (Shanghai) is a dynamic show and one of the largest machine vision shows in the world. The show is bigger and has more traffic than last year. There are many Chinese companies with advanced technologies, which really impress me a lot, and we are happy growing with the Chinese market. We are very excited about the high quality of the traffic so far. There are great opportunities for our business.

John Peng, Managing Director, Rofin-Baasel China Co., Ltd.

We are one of the founder exhibitors of LASER World of PHOTONICS CHINA. We believe in the important contribution the trade fair makes to the Chinese laser industry and to China's industrial upgrading. The exhibition offers a variety of laser industry conferences and companies sharing their latest products and technology. LASER World of PHOTONICS CHINA is really successful!

Bo Shen, V.G. Manager, Ningbo Sunny Instruments Co., Ltd.

We have exhibited at LASER World of PHOTONICS CHINA for many years in succession. The trade show attracts all the industry's leading manufacturers, so users can find out about the latest products and technology, and we can also talk to and learn from the frontline technicians. The trade show is very big and well organized. All the major roles in the market - distributors, manufacturers and the media - are here. The end users can see the latest equipment from all around the globe and talk to our developers. We hope that Sunny can find its way into the international market here.

Ling Sun, President, Ocean Optics Asia, Global Vice President, Ocean Optics

This year marks the 10th anniversary of Ocean Optics in China. In the past decade, we have exhibited here at least 8 times. LASER World of PHOTONICS CHINA is very satisfactory in every respect: organization, exhibitor and visitor quality, and the new products and technology on show. We hope this platform provides Ocean Optics with the opportunity for many more conversations with business users. We also wish LASER World of PHOTONICS CHINA all the very best.

Wei Wang, Director of Sales, Wuhan Raycus Fiber Laser Technologies Col., Ltd.

LASER World of PHOTONICS CHINA 2016 is the biggest in its history, with the most participants and visitors. We consider the exhibition to be a very important platform enabling us not just to exhibit our

latest technology and products, but to make contact with many buyers as well. We will continue to exhibit at future events.

Andreas Weller, General Manager, Laser Technology, TRUMPF (China) Co., Ltd.

This is the 11th time for us because, as you know, TRUMPF is one of this exhibition's founders, and we are very impressed to see how this exhibition has developed. According to our chairman Peter Leibinger, this show is the most impressive laser show in Asia. The quality of the exhibition is amazing. We are also very satisfied with the quality of the visitors. I think the 12th exhibition will be even better.

Dipl. Phys. Uwe Wielsch, Director Asia-Pacific, JENOPTIK Optical Systems GmbH

LASER World of PHOTONICS CHINA is a key trade show in Asia. We are meeting ever greater numbers of qualified and well-educated visitors. We are seeing visitors from all over Asia, including Japan, Taiwan, and Korea. We meet all the customers from markets such as the semiconductor, consumer electronics manufacturing, and medical industries.

Rangda Wu, GM, Penta Chutian (Wuhan) Laser

LASER World of PHOTONICS CHINA has been going 11 years and we have taken part in every one of them. The organizer, Messe Muenchen, has done a wonderful job of visitor promotion. The trade show has brought us many customers and orders, so we like it very much.

Jun Xiao, Sales Manager, CINV OPTICAL INSTRUMENTS CO., LTD

LASER World of PHOTONICS CHINA is the biggest event for the laser, optics and photonics industries in China. We can see that the number of exhibitors and professional visitors has been constantly on the increase in recent years. The trade fair occupies a leading position in the industry.

Feng Xu, Head of Parts Sales, Robots for Automobile Industry , Shanghai FANUC Robots

This is the third time we have exhibited at LASER World of PHOTONICS CHINA. Whether for equipment manufacturers, application manufacturers or end users, LASER World of PHOTONICS CHINA is a professional event. We certainly hope that it will become even better and attract even more professional exhibitors. I believe there will be more robotics exhibitors in the future.

Joe Zeng, Area Sales Manager, Robotics Division, Staeubli (Hangzhou) Mechatronic Co.,Ltd.

We are very satisfied with LASER World of PHOTONICS CHINA 2016, and we expect to participate again in future. LASER World of PHOTONICS CHINA is focused on all market segments and is very professional, so it is a great platform to us. Our major customers, such as those from the automobile (EV and new energy) and the medical industries, can all be found here.

Henry Zhang, Vice President, Zhejiang Dahua Technology Co., Ltd

General Manager, Zhejiang Huarui Technology Co., Ltd

Compared with similar exhibitions, Vision China (Shanghai) is clearly more professional. The range of the products and technologies exhibited, and visitor quality are all best in class. The trade show has

made great contributions to the industry. I believe that, with the cooperation of all our colleagues, the machine vision industry will reach even greater heights. We also hope that Vision China (Shanghai) will enable us to communicate with and learn from these colleagues, so that our collaboration boosts the entire machine vision industry yet further.

=====

About LASER World of PHOTONICS CHINA

LASER World of PHOTONICS CHINA is the leading regional trade fair for optical technologies in China. It takes place in Shanghai each March and is collocated with electronica China & productronica China. In 2016 the trade fair recorded 45,528 visitors and 802 exhibitors. The next LASER World of PHOTONICS CHINA will take place on March 14-16, 2017. <http://www.world-of-photonics-china.com/>

LASER WORLD of PHOTONICS worldwide

LASER World of PHOTONICS CHINA is a part of the worldwide LASER World of PHOTONICS network, including LASER World of PHOTONICS in Munich and LASER World of PHOTONICS INDIA, which has been held since 2012. LASER World of PHOTONICS INDIA is a regional trade fair for laser and photonics technologies, taking place every year in different places in India. With 2,171 exhibitors and around 82,000 visitors in Germany, China and India, Messe München International is the world's leading trade fair organizer for lasers and photonics.

Messe München

Messe München is one of the world's leading trade show companies. In Munich alone, it organizes around 40 trade shows for capital and consumer goods, and key high tech industries. Fourteen of these are the world's number one in their sectors. Each year more than 30,000 exhibitors and around two million visitors take part in the events held at Messe München exhibition center, the ICM – International Congress Center München, and in the MOC Veranstaltungszentrum München. The leading international trade fairs of Messe München are all FKM-certified, i.e. exhibitor and visitor numbers and the figures for exhibition space are collected in line with agreed standards and independently audited on behalf of the FKM (Gesellschaft zur Freiwilligen Kontrolle von Messe- und Ausstellungszahlen), a society for the voluntary monitoring of fair and exhibition statistics.

In addition, Messe München organizes trade shows in China, India, Turkey and South Africa, consistently extending its international presence. With a combination of affiliates abroad – in Europe, Asia and Africa – and over 60 representatives actively serving over 100 countries, Messe München has a worldwide business network. The Group also takes a pioneering role as regards sustainability: It is the first trade-fair company to be awarded energy-efficiency certification from the technical inspection authorities TÜV SÜD.
