As Asia's leading laser, optics and optoelectronics event, **LASER World of PHOTONICS CHINA** has continued to exhibit the full range of products in the optical and photonics industry from an international perspective, specifically designed to meet the unique needs of the Chinese market. In the past 13 years, the exhibition space, the number of exhibitors and visitors have all reached new highs. The exhibition has attracted industry leaders from all over the world to showcase their cutting-edge technologies and innovative products.

In 2019, **LASER World of PHOTONICS CHINA** will focus on "Intelligent Manufacturing with Light" with an exhibition space of 55,250 square meters. It will bring together nearly 1,000 exhibitors and is expected to attract around 60,000 professional visitors.

In the spotlight of this years edition: Users of intelligent manufacturing technologies, including automotive, 3C electronics, rail transit, medicine, automation and plastics.

Exhibition Areas cover hot topics of industry and research

LASER World of PHOTONICS CHINA 2019 consists of five major exhibition areas: Lasers and Photonics, Laser Production and Processing Technology, Optics and Optical Manufacturing, Imaging, Inspection and Quality Control as well as Machine Vision.

Among the companies who have already registered for the show there are global players and also innovative, small businesses, showcasing the latest industry developments.

LASER World of PHOTONICS CHINA

LASER World of PHOTONICS CHINA is the leading regional trade fair for laser and photonics in Asia. It takes place in Shanghai each March and is collocated with electronica China & productronica China. In 2018 the trade fair recorded 55,872 visitors and 977 exhibitors. The next LASER World of PHOTONICS CHINA will take place from March 20 to 22, 2019.

About the LASER World of PHOTONICS global network

The LASER World of PHOTONICS has developed an international trade fair network. The LASER World of PHOTONICS in Munich is the world's leading laser and photonics trade fair and as the innovation pacemaker is where the global photonics industry gathers every two years. The [LASER World of PHOTONICS CHINA](#) and the [LASER World of PHOTONICS INDIA](#) are leading regional trade fairs for laser and optical technologies and are staged annually in China (Shanghai) and in India (alternating between Bengaluru, Mumbai, Bangalore and New Delhi). With these trade fairs in Munich, China and India, Messe München is the world's leading trade fair organizer for lasers and photonics.

Messe München

Messe München is one of the leading exhibition organizers worldwide with more than 50 of its own trade shows for capital goods, consumer goods and new technologies. Every year, a total of over 50,000 exhibitors and around three million visitors take part in more than 200 events at the exhibition center in Munich, at the ICM –
